

*“How do I get him to stop sitting in front of the TV all day?”*

## Making Moments Matter™ Therapeutic Activity Program

Filling the Gap Between Diagnosis and Adult Day Care™ while improving the quality of life for those living at home with memory loss

**Making Moments Matter™** is an individualized, person-centered program that enables caregivers to successfully meet the needs of those who are living at home with memory loss, by concentrating on their current abilities and maximizing their strengths.

Activity plans are highly individualized to reflect the unique personality, life history, interests, and abilities of each client.

Perfect for those unwilling or unable to attend adult day care, as well as those needing socialization and appropriate cognitive stimulation, our **Making Moments Matter** program helps to engage your loved one in every day activities while cultivating a sense of purpose and fulfillment. **Making Moments Matter** is available in your own home, at assisted living or in skilled nursing centers.

- ♥ Engages your loved one in every day activities while providing a sense of purpose
- ♥ Provides socialization, cognitive stimulation, and physical activity
