

Alzheimer's Care Resource Center's Making Moments Matter™

When adult day care is not an option,
Making Moments Matter is a viable solution.

Making Moments Matter™ is an individualized, person-centered program that enables caregivers to successfully meet the needs of those who are living at home with memory loss, and who may be unable or unwilling to attend an adult day care program.

So often caregivers tell us,
“He just sits in front of the TV all day”, or
“She never wants to do anything but sleep”.

As those with memory loss may be unable to articulate their needs or self-initiate activities that provide them with a sense of joy and purpose, these tasks often fall upon caregivers.

“Improving the Quality of Life for Those Living at Home with Memory Loss.”
